

CONFIDENTIAL

24 May 1954

MEMORANDUM FOR: Captain P. C. Staley, USN,
The Joint Staff
Mr. Yano J. Skolnik,
Department of the Army
Lt. Cmdr. A. Christopher,
Department of the Navy
Major Thomas B. Johnson,
United States Air Force

SUBJECT: USIA Survey

1. The Terms of Reference for the Survey of Intelligence Needs of the U.S. Information Agency have been transmitted to you under IAC-D-82.

2. Paragraph 1 of that document states:

"In conducting the survey, the related needs of all intelligence agencies for similar intelligence and intelligence information should be taken into account as well as the resources both in Washington and in the field."

3. Attached at Tab A is a statement of the intelligence needs of USIA. It generally conforms to the criticism of the various components of USIA of an earlier draft, although it is still subject to change. It does, however, provide sufficient identification of types of intelligence needed to permit an examination by the military intelligence agencies of the relation, if any, of their own requirements or possible contribution to meet such requirements.

4. Accordingly, it would be helpful if you would provide in writing answers to the following questions by the close of business on Friday, 28 May 1954:
